

Harold Sherry passed away this month from colon cancer in prison. There is not likely to be an obituary. Harvey Goldstein tried to convince Harold that he should plead self defense because he was threatened and the neighbor he shot was on Harold's property yelling at him. Never-the-less Harold pleaded guilty and asked the judge for mercy. The judge gave him 20 unmerciful years which became a life sentence for Harold.

Harold studied actuarial science, graduated from the University of Michigan, after spending the first 2 years at the University of Florida in Gainesville. He worked as an actuary, risk manager, for many years.

Harvey asked the prison Chaplin to contact the Chabad Rabbi who said he would give Harold a proper Jewish funeral.
